Backend-focused engineer with 1+ year at Cognizant building production applications in Node.js, JavaScript, and React. Experienced in REST API design, authentication, and shipping features end to end; built an internal automation tool that removed a recurring manual workload for a 10-person team. Seeking Backend / SDE roles

Skills

- Languages - JavaScript, TypeScript, Java, Python, SQL
- Backend - Node.js, Express.js, REST APIs, JWT Auth
- Frontend - React, Next.js, Tailwind
- Databases - PostgreSQL, MySQL, MongoDB
- Tools - Git, Docker, Postman, AWS, Linux
- Familiar - Spring Boot, Angular, Hono

Experience

- **Cognizant, Chennai**
Programmer Analyst (Jun 2025 – Present)
 - Designed and built an internal automation suite (Python, Electron) that automated database query execution, Excel report generation, and a desktop dashboard, eliminating 3 hours/week of manual reporting for a 10-person team.
 - Develop and maintain features on a production Node.js application, working in a 10-person Agile team on 2-week sprints.
- **Kennametal Inc, Bengaluru**
Project Intern (Apr 2024 – Aug 2024)
 - Built a Python search tool handling 10,000+ row CSV/Excel files with real-time filtering, cutting manual lookup time by ~60% for the ops team.
 - Optimized the search model to handle mixed data types, supporting range-based and exact-match queries.
- **LuminAI, Bengaluru**
Full Stack Intern (Oct 2023 - Dec 2023)
 - Designed and implemented backend systems using Node.js and Express to develop robust RESTful APIs for efficient data exchange and database-driven role validation for secure API access.
 - Integrated user authentication and access control mechanisms using JSON Web Tokens (JWT).

Projects

- **Travel Package Booking System**
Developed a robust, end-to-end full-stack application for browsing, searching, and booking travel packages, with secure user data. **Tech Stack:** Spring Boot, React, MySQL, Hibernate, Git, Jwt Auth
- **Blog Medium**
Developed a responsive blog platform with serverless backend deployment for seamless user experience, supporting edge deployments. **Tech Stack:** Hono, React, Typescript, Tailwind, Cloudflare, Git, Vercel
- **Portfolio Website**
Tech Stack: React.js & Next.js, Typescript, Tailwind, Framer Motion, Vercel

Certifications

- **Claude Certified Architect**, Anthropic (2026-06)
- **Full Stack Developer**, LinkedIn Learning (2024-07)

Education

- **BE in AI&ML** | Visveswaraya Technological University, Bangalore (2021-2025) | **CGPA: 9/10**
- **Class 12th** | Karnataka Pre University Examination Board, Bangalore (2020-2021) | **Score: 100%**
