

Education

• BE in AI&ML , Visveswaraya Technological University, Bangalore (2021-2025)	CGPA: 9/10
• Class 12th , Karnataka Pre University Examination Board, Bangalore (2020-2021)	Score: 100%
• Class 10th , Karnataka Secondary Education Examination Board, Bangalore (2019)	Score: 96.64%

Experience

• Cognizant, Chennai Programmer Analyst Trainee,	Jun 2025 – Present
• Contributed to full-stack enterprise projects, leveraging Spring Boot and React as main frameworks for core application development on AWS.	
• Developed a full-stack Travel Package Booking application, integrating Java/React principles	
• Kennametal Inc, Bangalore Project Intern,	Apr 2024 - Aug 2024
• Engineered a Windows-based search tool in Python , enabling dynamic CSV/Excel file filtering with real-time results.	
• Optimized the search model to handle mixed data types, supporting both range-based and exact-match queries.	
• LuminAI, Bangalore Full Stack Intern,	Oct 2023 - Dec 2023
• Designed and implemented backend systems using Node.js and Express to develop robust RESTful APIs for efficient data exchange.	
• Integrated user authentication and access control mechanisms using JSON Web Tokens (JWT) and database-driven validation.	

Skills

Programming Languages: Java, JavaScript, TypeScript, Python, HTML-CSS
Framework: Spring Boot, React, Next, Express.js, Tailwind CSS
Tools: Git & GitHub, Docker, WebFlow, Figma
Databases: PostgreSQL, MongoDB, MySQL

Projects

• Travel Package Booking System Developed a robust, end full-stack application for browsing, searching, and booking travel packages, with secure user data. Tech Stack: Spring Boot, React, MySQL, Hibernate, Git, Jwt Auth
• Portfolio Website Built a sleek and responsive portfolio website with animations, achieving fast load times and a 100% Lighthouse performance score. Tech Stack: React.js & Next.js, Typescript, Tailwind, Framer Motion, Vercel
• Blog Medium Developed a responsive blog platform with serverless backend deployment for seamless user experience, supporting edge deployments. Tech Stack: Hono, React, Typescript, Tailwind, Cloudflare, Git, Vercel
• Explore my other projects on my GitHub: github.com/darshansadashiva

Certifications

• Full Stack Developer , LinkedIn Learning (2024-07)
• MERN Stack Web Development , 100xDevs (2024-05)
